

NIKHIL KUMAR RATHORE

Full Stack Developer | React.js | Node.js | Express.js | PostgreSQL | GEN AI
nikhilarathore10b@gmail.com | 9131344990 | Indore, Madhya Pradesh | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

SUMMARY

Final-year B.Tech Computer Science student with full-stack development experience building React.js, Node.js, Express.js and MongoDB/PostgreSQL applications, including REST API integration and database-backed workflows. Backed by 250+ solved DSA problems on LeetCode and a working understanding of OOP, complexity analysis and scalable system design concepts.

TECHNICAL SKILLS

Languages: JavaScript, C++, Python, PHP

Frontend: React.js, HTML/CSS

Backend: Node.js, Express.js, REST APIs, FastAPI, CodeIgniter 3

Databases: MongoDB, PostgreSQL, Prisma, MySQL,

Tools: Git, GitHub, Docker

Core CS: Data Structures & Algorithms, OOP, Time/Space Complexity

Machine Learning: Python, Pandas, NumPy, Scikit-learn, TensorFlow, LangChain, LangGraph, RAG

EXPERIENCE

Act T Connect Pvt. Ltd. — Full Stack Developer

Jul 2026 – Aug 2026

- Developed responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Integrated REST APIs and database workflows to support application functionality and data management.
- Debugged and optimized application workflows to improve application reliability and user experience.

EduLyt India — AI/ML Intern

May 2025 – Aug 2025

- Built and evaluated machine learning models in Python using Pandas, Scikit-learn, and TensorFlow, including data preprocessing and exploratory data analysis (EDA).
- Used GitHub for version control and collaboration throughout model development and deployment workflows.

PROJECTS

AegisAI — Enterprise AI Support & Automation Platform

2026

Tech Stack: Python, FastAPI, LangChain, LangGraph, RAG, MySQL, REST APIs, Docker

- Developed an enterprise AI support platform using Python, FastAPI, LangChain and LangGraph, implementing RAG and multi-agent workflows for intelligent support automation.
- Built document ingestion and semantic search using embeddings and Qdrant, enabling source-grounded responses from enterprise PDFs and technical documentation.
- Integrated AI agents with MySQL and REST APIs through controlled SQL/API tools for ticket analysis, business-data retrieval and automated support workflows.
- Integrated the AI service with a CodeIgniter 3/PHP application and containerized the system using Docker for scalable deployment.

DevHire AI — AI-Powered Career Hiring Platform

2026

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Prisma, REST APIs, Gemini AI

- Built an AI-powered hiring platform connecting developers and recruiters through intelligent job matching.
- Implemented candidate evaluation, developer profiles, job applications, and recruiter workflows.
- Integrated Gemini AI, REST APIs, PostgreSQL, and Prisma within a React.js/Node.js full-stack architecture.

PROBLEM SOLVING

Solved 250+ DSA problems on LeetCode using C++, covering arrays, strings, linked lists, stacks, queues, trees, graphs, dynamic programming, binary search, and sliding window techniques. Strong understanding of OOP, time/space complexity, and algorithm optimization; familiar with caching, load balancing, and scalable system design concepts.

ACHIEVEMENTS

- Engineered a patented system to enhance cloud efficiency via time-shifted task execution.
- Managed technical operations for “SquidHack 2026” (24-hour non-stop coding hackathon) at SAGE University, supporting systems and troubleshooting for 75+ teams.

EDUCATION

SAGE University — B.Tech, Computer Science Engineering

2023 – 2027

CGPA: 8.97

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle (2026)
- Generative AI Fluency — NASSCOM (2026)
- Operating System Fundamentals — NPTEL/Swayam (2025)
- Python for Data Analysis — Coursera (2025)
- Concepts in SQL — Coursera (2025)
